Theo Angelopoulos – In memoriam Symposium

The Athens Concert Hall had scheduled an event at which Theo Angelopoulos and Wim Wenders were to discuss the current global economic and cultural crisis, the arts and the cinema. The event would also have featured a screening of the late director's *Ulysses' Gaze*. In honour of the great director, the Concert Hall has now organized an international symposium in his memory. This will be accompanied by a screening of his films. The event will be a modest tribute to the "poet of the image", the director who revolutionised Greek cinema and placed it firmly on the world stage.

06.06

An Evening of Literature and Poetry in the Garden of the Concert Hall

Following last June's highly successful events in the gardens of the Concert Hall, featuring the poets Kiki Dimoula and Titos Patrikios, we will be holding two major events in the gardens this year: an awarding of prizes by the *Diavazo* magazine, and a Kavafy evening.
