

Dear participants, partners and visitors!

In recent months, we have been actively and persistently doing our best to ensure that UITT 2020 - Ukraine International Travel and Tourism exhibition took place in September with positive business outcome for each exhibitor and visitor. We did everything to ensure the complete safety of everyone to be involved.

The uncertain situation in the tourism market in the world and Ukraine caused by COVID19 led to further uncertainty flights resumption between Ukraine and other exhibiting countries, the bylateral closure of borders and increasing numbers of infected in some participating countries, we as the organizer of the exhibition had to take this difficult but necessary decision to postpone the UITT exhibition from September 1-3, 2020 to its traditional dates in **March 24-26, 2021**.

We hope for your understanding of and support for this decision which we took in the best interest of the Travel and Tourism communities our show has been so successfully serving over the years. We know how much you were looking forward to the exhibition in September, and regret the inconvenience associated with the postponement. We, as organizers, will make every effort to make this event in March 2021 the most effective for you.

Due to the transfer of the exhibition, all the bookings of space and arrangements related to your participation and/or visiting (space booking, orders for additional equipment and services, visitor tickets and registrations, etc) are considered valid for the new dates of the exhibition.

We do not stop in our work for a day. We will make every effort to help you further develop your business, and the UITT exhibition will carry on being an effective tool for promoting your services in the market and an effective platform for the renewal and further promotion of your business in Ukraine and the world.

Kind regards
Event Director
Of UITT & UITM Exhibitions

Julia Zheldak
